

**REFERENC LIST**  
**-ARCHITECTURE AND URBAN PLANNING-**

Project description	Investor	Year
Preliminary design of the concrete plant for the construction of the "Kobilja Glava" tunnel	EUROASFALT	2024
Revision of the main design for the construction of a production-storage facility for the production, packaging and storage of pallets, a production hall for the production of three-layer waterproof panels and the production of other wood products, cork products, straw and wicker materials	IDEX GROUP DOO BUSOVAČA	2024
Main design of FNE Union 1 Zenica (architecture and exterior decoration)	ELCOM d.o.o. Tuzla	2024
Preliminary, main, detail and as built design for the rehabilitation/reconstruction of TS 110/x kV Lukavac (architectural and construction part of the project)	ELCOM d.o.o. Tuzla	2024
<b>Development of project documentation (preliminary, main and detail design) of the waste material management system at the location of the operator PD "GALVANORM" d.o.o. Konjic:</b> Architectural project Construction project Project of electrical installations Project of mechanical installations Water and sewage installation project Exterior decoration project Construction waste management plan Fire protection project Elaboration of protection at work Geodetic survey of the location	Galvanorm doo Kojic	2023
<b>Development of project documentation for the installation of a temporary concrete plant at the location of Novo Selo (Medakovo)</b> - Preliminary design of the temporary concrete plant at the Novo Selo location (Medakovo) -Main design of the temporary concrete plant at the Novo Selo location (Medakovo) - Revision of the main project of the temporary concrete plant at the Novo Selo location (Medakovo) - Verification of the main design of the temporary concrete plant at the Novo Selo location (Medakovo) from the point of view of occupational safety and fire protection - Study on safety at work and Study on fire protection -Study for the issuance of a preliminary water permit for the construction of a temporary concrete plant at the location of Novo Selo (Medakovo)	EURO-ASFALT	2023
Development of a project that is implemented as part of the closure of collective centers and alternative solutions through the provision of public housing solutions - CEB II sub-project 075 City of Živinice	City Živinice	2023
<b>CONSULTING SERVICES FOR THE PREPARATION OF THE CONCEPTUAL AND MAIN PROJECT FOR THE CONSTRUCTION OF THE MOTORWAY SECTION MOSTAR NORTH – MOSTAR SOUTH CONCEPTUAL PROJECT</b> <u>Architectural and Landscape Design</u> -Architectural project for CP and COKP buildings -Construction project for CP and COKP buildings -Project for water supply, sewage with drainage and wastewater treatment for COKP and CP -Project for electrical installations of CP and COKP buildings -Project for heating, ventilation, and air conditioning of CP and COKP buildings	TRASA	2022
<b>MAIN PROJECT</b> <u>Architectural and Landscape Design</u> -Architectural project for CP buildings -Construction project for CP buildings -Project for water supply, sewage with drainage and treatment of fecal and stormwater from CP buildings -Electrical engineering project for CP		

-Project for heating, ventilation, and air conditioning of CP buildings		
-Project for interior design and equipment of CP buildings		
<b>Preparation of project documentation for the residential and commercial complex SPO Arena Palace Tuzla, which includes the preparation of:</b>		
a. conceptual solution,		
b. conceptual design,		
c. main design,		
d. detail design,		
e. As built design for SPO ARENA Tuzla, with the following phases included:	ELCOM d.o.o. Tuzla	10/2022
• Architecture,		
• Constructions,		
• Water and sewerage,		
• Mechanical and technological installations,		
• Sprinkler		
• 3D presentation of the project, in form of video animations		
Landscaping for SPO ARENA Tuzla		
Development of a master plan with conceptual design of buildings and facade decoration for the Studen business center in the Brčko District Bosnia and Herzegovina	STUDEN GLOBAL SEE D.O.O. BRČKO	2022
Main design of renovation of the city art gallery Collegium Artisticum	JU Collegium artisticum	2022
Project documentation for a residential and business building at the location of Crkvice Zenica approx. 2000 m2 Development of conceptual and variant solutions, conceptual design and main design with the following phases:		
- Architecture	ELCOM	2022
- Constructions		
- Water and sewerage system		
- Mechanical engineering		
- Exterior decoration		
Preparation of project documentation for the Steel Fiber Production Line Preliminary and main design includes the following phases Architectural and construction phase, plumbing, mechanical phase, electrical phase Mission G21 and G23 Main fire protection project with audit report Occupational safety study Detailed construction waste management plan Derived condition project	ArcelorMittal Zenica d.o.o.	2021
Revision of investment and technical documentation "Main design of gypsum silos with dosing system on MC1 and C2" with the following phases:		
Architecture	ATRIUS PROJEKT	2021
Constructions	d.o.o. Živinice	
Hydro installations		
Electrical installations		
Creative house Sarajevo 2.500 m2 Preliminary and main design of business facility Creative house Sarajevo that included following:		
Architecture phase	Bingo export import d.o.o.	2021
Mechanical phase	Tuzla	
Electrical phase		
Hydro phase and		
Surveying		
Preliminary design for surface structures (high-rise buildings) at the location of the Rupice pit for the following phases:		
-Architecture-civil phase	Eastern Mining d.o.o.	2021
-Mechanical phase		
Main design of the business logistic center in Sarajevo, including landscape and infrastructure designs 27.182m2		
1. Architecture		
1.1. Architectural design of the building, construction - craft works, physics of the building, 3D visualization	TPDC Sarajevo	2021
Main design of the external arrangement of the business storage facility with the accompanying infrastructure		
1. Geodesy		

2. Roads and parking lots 3. Electrification 4. Traffic signalization		
Main-detail design of rehabilitation, reconstruction and new construction of the liquid petroleum fuel terminal in Mostar, which contains: - technological - mechanical project, - electrical project, - construction project, - instrumentation project, - fire protection project, - fire protection study, - occupational safety study, - study of danger zones, - fire protection plan, - project of collection, treatment and drainage of precipitation, fecal and potentially oily waters, - study of PP water supply, - fire and gas detection and alarm project, video surveillance project, - study on engineering geological and geotechnical characteristics of the terrain - mission G21, - project for rehabilitation of part of the industrial railway track for the terminal, - study on environmental protection, - project for removal of facilities at the terminal that are no longer in use, - waste management plan for the construction site, geodetic project of the exploratory well - well, project of alternative water intake with the well for reserve supply of PP water, project / program of technical maintenance and handling, - project of lightning protection of earthing and EX lighting - geodetic study	Terminals of FBiH	2021
Municipal building Bužim 1.000 m2 Preliminary design of municipal building in Bužim	Bužim Municipality	2020
Redesign of the Main project for the reconstruction of the building and upgrade of the floor of the building for the accommodation of the Prosecutor's Office of BiH	Ministry of Justice BiH	2020
Reconstruction of the exterior of the GAZPROM-PETROL gas station for the needs of Mc Donald's Drive restaurant - Šip Alipašina bb, which includes the following services: - Geodetic recording- Development of variant solutions of the project solution- Main project- Review and verification of project documentation from the point of view of occupational safety and fire protection	GLIESE 581g d.o.o. DL McDonald's	2020
Preparation of project documentation design: - Station of Island A - supplement to the Main Design and preparation of the Detailed Design - Stands Nedžarići B - supplement to the main project and development of the Detailed Design, - Optical cable - main project- - Safety at work and fire protection study	Euro-Asfalt d.o.o. Sarajevo	2020
Preliminary design of business facility in Tuzla	Bingo export import d.o.o. Tuzla	2020
Detail design of two-storey garage (4,000 m2) with the square included following phases: Architecture Construction Hydro installation Mechanical installation Landscaping	Municipality Novi grad Sarajevo	2019
Preliminary and Main design for the removal of architectural barriers for people with mobility difficulties at the following facilities:1. PI Cantonal Center for Social Work, Social Welfare Service, Novo Sarajevo2. Public Institution for Health Protection of Women and Maternity KS, Center3. Elementary school "Srednje" Ilijaš4. IV Gymnasium, Ilidža5. Elementary school "Mustafa Busulažić", Novi Grad6. Elementary school "March 6", Hadžici7. Elementary school "Mirsad Prnjavorac", Vogosca8. Third Gymnasium, Novo Sarajevo9. Chamber Theater 5510. Vogošća High School Center, Vogošća	UNDP (Enova d.o.o.)	2019

Preliminary design for the adaptation of the existing building at the Blažuj terminal	OPERATOR - TERMINALI FEDERACIJE D.O.O. SARAJEVO	2019
Auditing of the project for the construction of Tankvana around the tar storage in the circle of ArcelorMittal Zenica	ArcelorMittal d.o.o. Zenica	2019
Conceptual variant solutions of the project of rehabilitation and reconstruction of the Ice Hall and revision of the selected conceptual and main project of rehabilitation and reconstruction of the Ice Hall	KJP Centar SKENDERIJA d.o.o. Sarajevo	2019
Auditing of the Main Project for Reconstruction and Redesign of the Facade and Roof of the Residential and Business Building Soliter S-1 in Maglaj	Maglaj Municipality	2019
Investment and technical documentation for the construction of a multi-apartment building in the municipality of Živinice (24 housing units) - Sub-project 077 (Project CEB II "Closing collective centers and alternative accommodation by providing public housing solutions - L / D 1789 (2013)")	Federal Ministry for displaced persons and refugees	2019
Investment and technical documentation for the construction of a multi-apartment building in the municipality of Živinice (43 housing units) - Sub-building 078 (Project CEB II "Closure of collective centers and alternative accommodation through the provision of public housing solutions - L / D 1789 (2013)")	Federal Ministry for displaced persons and refugees	2019
Parking design services for the company Junuzović Kopeks at the location Reljevo	STUDIO ARH doo Sarajevo	2019
Main design of "Cemetery - Borik" in Maglaj	Maglaj Municipality	2019
Development of a detailed design for the construction of a two-storey garage with a square on Alpašino polje in Semira Frašte Street	Novi grad Municipality	2019
Preparation of technical documentation for the demolition of the storage facility and the construction of a multi-storey-cascade parking lot	Bosnalijek d.d. Sarajevo	2019
The main project of arranging the Square of Defenders in Goražde	City of Goražde	2019
Preparation of project documentation - design: Preparation of the Main Detailed Design COMPLETE adaptation of part of the space of the existing administrative center - dispatch house of the tram line at the location Čengić Vila - Bulevar Meše Selimovića bb	Euro-Asfalt d.o.o. Sarajevo	2019
Development of the Preliminary Project "Cemetery - Borik" in Maglaj	Maglaj Municipality	2019
Development of Preliminary and Main design for VAL facility	Sarajevo International Airport	2018 2019
Development of the main design of the concrete plant "Ričice", municipality of Zenica: - Architectural and construction phase, - Constructive phase, - Wiring, - Hydrotechnical phase, - Occupational safety study, Fire protection study.	Euro-Asfalt d.o.o. Sarajevo	2018
Auditing of the Main Project for Hard stand Leveling of TPP Banovići (construction part)	RMU Banovići	2018
Framework agreement: - Preparation of project documentation, ie Preparation of bill of quantities with or without recording of the existing condition of the facility and bill of quantities in the form of studies at the locations of AF BiH: Location of AF BiH "Zaim Imamović" Pazarić, guard facility number 16 Location "Mato Lučić Maturica" in Kiseljak Location "Robbery" in Bihać Location "Stanislav Baja Kraljević" in Mostar, O-4 guard facility - Preparation of project documentation (preparation of technical documentation for planned works), which includes military locations in the municipalities: Sarajevo, Hadzici, Pale, Han Pijesak, Zenica, Travnik, Novi Travnik, Visoko, Kiseljak, Mostar, Capljina, Bileca, Glamoc, Livno, Čelebići, Goražde / Ustikolina, Trebinje, Foča, Busovača and Donji Vakuf - Development of project documentation (development of technical documentation for planned works), which includes military locations in the	Ministry of Defense BiH	2018 2019

municipalities: Banja Luka, Orašje, Doboj, Bijeljina, Tuzla, Srebrenik, Žepče, Bihać, Prijedor, Derвента, Mrkonjić Grad, Modriča, Prnjavor and Živinice		
Preparation of investment and technical documentation for the removal of architectural barriers in the municipality of Novo Sarajevo	Novo Sarajevo Municipality	2018
Preparation of complete project documentation for exterior design around the buildings "B1-B, B1-A, A1-A, A1-B and 3E", Rosulje settlement in Sarajevo:- Preliminary design,- Detailed design:o Project of roads with necessary parking lots, retaining walls with static budget,o Outdoor lighting project,o Water supply project,o Sewerage project,o Gas installation project,o Bill of quantities by phases (for all three phases of construction of the external arrangement).	Fond CS for the construction of housing for members of the families of martyrs and fallen soldiers, war invalids, demobilized fighters and exiles	2018 2019
Investment-technical documentation for the construction of a multi-apartment building in the City of Mostar LOT 1 and LOT 2 - Project CEB II "Closing collective centers and alternative accommodation by providing public housing solutions" -Testing of the foundation soil and preparation of the Study on geotechnical testing Development of the Main Design for the construction of a residential buildings, within which the following phases were done Architectural phase, constructive phase, hydro phase, electro phase, Mechanical phase and exterior arrangement -Development of a fire protection study for the construction of a residential buildings -Development of an Occupational Safety Study for the construction of a residential buildings -Development of the Study on energy efficiency for the construction of a residential buildings -Development of Environmental Study for the construction of a residential buildings	Federal Ministry for Displaced Persons and Refugees	2018
Private villa, Poljine - Sarajevo Turn key contract for the reconstruction and upgrade of existing villa with following: Architectural phase Construction phase Hydro installation Mechanical installation Landscaping	KATARA	2017-2020
Project-technical documentation for the construction of two apartment buildings in the City of Goražde LOT 1 and LOT 2 - Project CEB II "Closing of collective centers and alternative accommodation by providing public housing solutions" -Testing of the foundation soil and preparation of the Study on geotechnical testing Development of the Main Design for the construction of a residential buildings, within which the following phases were done Architectural phase, constructive phase, hydro phase, electro phase, Mechanical phase and exterior arrangement -Development of a fire protection study for the construction of a residential buildings -Development of an Occupational Safety Study for the construction of a residential buildings -Development of the Study on energy efficiency for the construction of a residential buildings -Development of Environmental Study for the construction of a residential buildings	Federal Ministry for Displaced Persons and Refugees	2017
Auditing of the construction part of the Main Design for the reconstruction of SS 110/35/6 kV HAK, which includes a list of the following books: - Volume G01 Command and control building - architectural part, - Volume G02 Command and control building - construction part, - Volume G03 Command and control building - water supply and sewerage, - Volume G04 Hard stand with internal road and transport paths, cable channels and fence - construction part,	Energoinvest d.d. Sarajevo	2017

- Volume G05 Appliance carriers with foundations, transformer foundation, - Volume G06 Command and control building - mechanical part.		
Main design of the future tourist and recreational complex Ljubina - Ilijaš municipality	PIONEERS SYSTEMS d.o.o. Sarajevo	2017
Main design of the park in Hrasnica in front of the House of Culture	Iliđa Municipality	2016
Auditing of investment – technical documentation (main design) for construction of residential buildings in Goražde Municipality (20 flats) and Jajce (7 flats)	Ministry for human rights and refugees	2016
Main design of the residential object in Sarač Ismailova 24 street	GULF HOUSE ENGINEERING d.o.o.	2015
Main design "Ajvaz Han" facility in Prusac - Akhisar, Donji Vakuf Municipality	Islamic Community Donji Vakuf	2015
Auditing Optimization/Modifications of Detailed design project in the construction area of block 7 in TE Tuzla	PC Elektroprivreda dd Sarajevo	2015
Auditing of the main design for facility removing	PC International Sarajevo Airport	2015
Main design of the exterior facility Carinsko bunker IV	Intereuropa RTC	2014
Main design for all phases for recovery and separation of business premises in the street Dobrinjske bolnice br. 9	Novi Grad Municipality	2014
Main design bi-functional building shelters / garages	Vogošća Municipality	2013
Main design of multifunctional sports hall in Kruščica	Jajce Municipality	2013
Preliminary design for setup of Vidikovac	Banovići Municipality	2013
Main design of landscape around the sports hall Kalesija	Kalesija Municipality	2012
Auditing of the part of the main design of extension of Terminal B at Sarajevo International Airport	UNIONINVEST d.d. Sarajevo	2012
Main design of four-year school in settlement Lukavica Rijeka, Doboj East	Doboj Istok Municipality	2012
Auditing of exterior design of the location for construction of lock 7 in TE Tuzla	JP Elektroprivreda dd Sarajevo	2011
Detailed design of infrastructure spatial scope of the regulatory plan industrial complex in Vogošća	Vogošća Municipality	2008
Auditing of project for 10 residential buildings	Stari Grad Municipality	2008
Main - detailed design of the primary infrastructure of the spatial scope of the part of the Regulatory Plan of the industrial complex "New Industrial Zone" in Vogošća, area of 27 ha: A. Making a geodetic survey and study B. Preparation of a study on the engineering-geological composition and geomechanical characteristics of the soil C. Development of implementation projects: 1. Main project of levelling the complete terrain 2. Main project of roads with connecting roads 3. Main project of separate sewerage 4. Main plumbing project 5. Main energy project 6. Main lighting project 7. Main PTT project 8. Main heating and gasification project 9. Main project of traffic solution of horizontal and vertical signalization 10. Main horticulture project. B. Creating a composite situation C. Design bill of quantities and estimate	Vogošća Municipality	2007

D. Verification of complete project documentation from the aspect of occupational safety and fire protection.

Main design of the primary infrastructure of the spatial scope of the Regulatory Plan "Rosulje" in Vogošća for collective housing, with an area of 36 ha, as follows:

- A. Making a geodetic survey of spatial coverage
- B. Preparation of a study on the engineering-geological composition and geomechanical characteristics of the soil
- C. Development of main - implementation projects:
  - 1. Traffic plan with levelling and external arrangement,
  - 2. Levelling of the complete terrain,
  - 3. Water supply,
  - 4. Drainage of rainwater and wastewater,
  - 5. Electric power,
  - 6. Public lighting,
  - 7. PTT network,
  - 8. Gasification,
  - 9. Traffic signalization (horizontal and vertical with the project of light signalization of the intersection in Igmanskog marša Street),
  - 10. Horticulture with urban furniture,
  - 11. Detailed design for relocation of the industrial railway Semizovac - Unis
- D. Creating a composite situation
- E. Design estimate
- F. Verification of complete project documentation from the aspect of occupational safety and fire protection.
- 11. Main horticulture project.
